V İ Z Y O N & M İ S Y O N

Vizyon, beyindeki radarın, yürekteki gözün sağladığı bir görüş yeteneğidir. Vizyon, geleceğini yakalama arzusu ve iradesidir.

Vizyon ne hayaldir, ne de gerçekleşmeyecek bir düşünüş. Vizyon, mevcudu çok iyi analiz etmek, potansiyeli hissetmek ve geleceği görmek demektir.

Sektörün üreticilere çok uzak durduğu, birbirlerinden herhangi bir beklentilerinin olmadığı o günlerde vizyonunu anlatmaya çalışan DOORLIFE'a, dudak bükken, anlatılanları, yazılanları gerçekleşmeyecek düşler olarak değerlendirenler şimdi DOORLIFE'ın hakkını teslim ediyorlar.

Çünkü tek başına başlanan bu yürüyüşte vizyonun misyon haline getirilmesi için kadrolaşarak, karşılaşılan engeller karşısında inançsızlığa kapılanlarla yollarını ayırarak bıkmadan, usanmadan, yılmınlığa düşmeden büyük bir inanç, özgüven ve cesaretle, gittikçe büyüyen bir katılımıla DOORLIFE, vizyonunu hayata geçirmiştir.

Ve şimdi...

Her geçen gün genişlettiğimiz ürün yelpazesi ile sektörünün en büyük şirketi olmaya kararlıyız. Müşterilerimizin memnuniyeti her zaman ana ilkimiz olmuştur. En iyi hizmeti sizlere sunabilmek için yatırımlarımıza aralıksız devam ederek markamızı en iyi noktalara taşıyacağız.

DOORLIFE, " olmak" öncelikli bir korumacılık yerine "yapmak" öncelikli bir gelişmecilikten yana tavrının doğal sonucu olarak yenilenmiş vizyonu, sizlerle birlikte varacağı yeni hedeflerin vizyonu, genç kadrosunun dinamizmi ile yeni, yepyeni KAPI MODELLERİ ile karşınızda olmaya devam edecektir.

VISION & MISSION

Vision is an ability of seeing thanks to the radar in one's brain and the eyes in one's heart. Vision is the desire and will to catch the reality of the future. Vision is neither a raw fantasy, nor an impossible dream. Vision is being able to analyze the current situation very well, feeling the potential and seeing the future.

Those who evaluated the things, which we explained and wrote, as impossible fantasies and who showed displeasure to DOORLIFE who tried to tell them its vision in the old days when the sector and the producers had no expectations and were standing very far away from each other, are now acknowledging the success of DOORLIFE.

Because DOORLIFE managed to realize its vision thanks to constantly growing participation with self-confidence, courage and faith, persistently and without fear, by organizing the personnel in order to turn the vision into the mission during this long path we started alone, and by parting our ways with those who did not have faith in front of the obstacles.

And now...

We are determined to become the biggest company of the the sector thanks to our product range we extend with each passing day. Satisfaction of our customers has always interruption in order to provide you with the best services and to bring our trademark to the best position.

DOORLIFE will continue to be with you with new, brand-new DOOR MODELS thanks to dynamism of young personnel, the mission of new goals are going to reach with you, the renewed vision as thenatural result of DOORLIFE's approach which supports improvement with priority of "doing" instead of proted of protectionism with "being" priority.

TEKNİK BİLGİLER / TECHNICAL INFORMATIONS

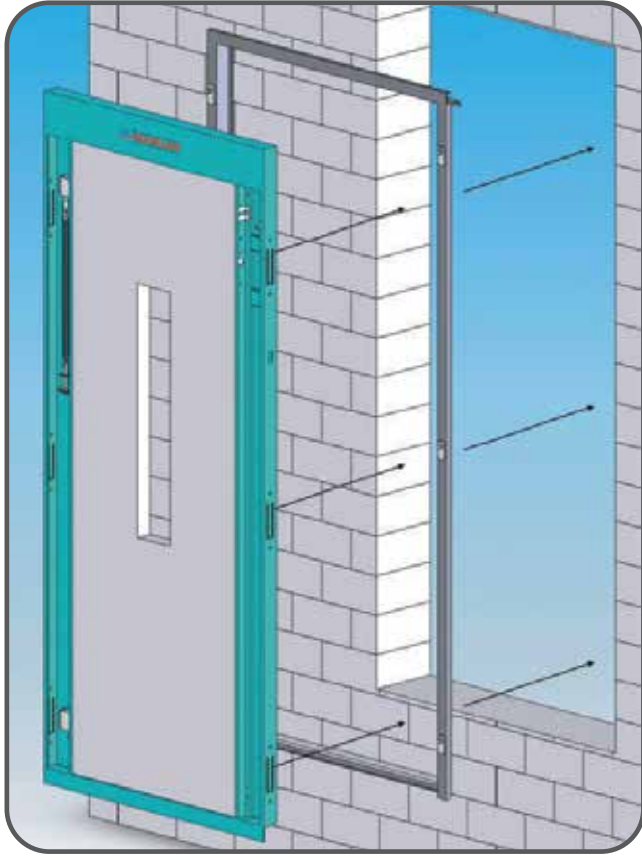

DİKKAT!

- Asansör kapısını sakuli kontrol edilmiş ve çarpıklığı giderilmiş olarak monte ediniz.
- Kapı kilit ve fiş kontağının yerine tam oturmasını sağlayınız.
- Kapı amortisörünü kanat üstüne monte ediniz.
- Kasa menteşesi içerisindeki çelik bilyanın yerinde olduğundan emin olunuz. Kasa civası ile kanadın aşağı yukarı hareketi sağlanarak ince ayarını yapınız. Somunu ile civatayı sabitleyiniz.
- Şakalinde/dengesinde olan asansör kapısı yayı takıldıktan sonra bir kaç tur kurarak yayın kapıyı çekmesini sağlayınız, altı köşe pulu ile yayı sabitleyiniz.
- Cam sıkıştırıcıları ile camı sabitleyiniz. Kapı çerçeve segmanlarını merkezleyerek yerine takınız.

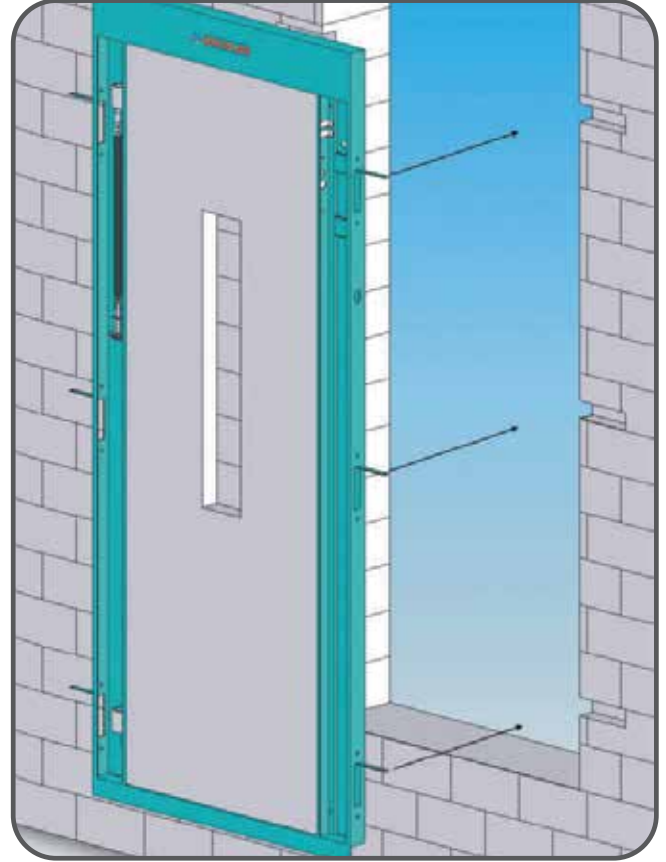

CAUTION!

- Mount the elevator doors as the plumb line checked and the skewness has been corrected.
- Let the chips and the door lock to fit in place of contact.
- Mount shock absorbers of the door on the wing.
- Make sure that your steel ball is in the case nut. Make fine tuning by movement of the wings up and down by using case bolt. Fix the bolt with nut.
- Make sure after the spring is fixed, you set it a few rounds that the spring can haul the door which is on balance and fix the spring with hexaganol pul.
- Fix the glass with glass compression. Install the door frame segments in their places after centering them.

TEKNİK BİLGİLER / TECHNICAL INFORMATION

ŞEKİL - 1 Körkasalı Montajı / Mounting With Subframe

ŞEKİL - 2 Körkasasız Montajı / Mounting Without Subframe

STANDART KAPI BİLGİLERİMİZ

1. Kapı kanadı 1,2 mm kalınlığında A1 kalite DKP sactan imal edilir.
2. Kapı kasası 2 mm kalınlığında A1 kalite DKP sactan imal edilir. Kapının mukavemetini arttırmak için takviyelerle sabitlenir, isteğe ve kapı büyüklüğüne bağlı olarak sac kalınlığı değiştirilir.
3. Çerçeve ve kapı kolu alüminyumdan imal edilir.
4. Kapıların yüzey temizliği fosfatlama yapılarak elektrostatik toz boya ve fırınlama tekniği ile kaplanır.
5. Uyumlulukları kontrol edilen kilit ve amortisörler, shlink makinası ile toz ve nem almayacak şekilde ambalajlanır, bu sayede oksitlenmesi önlenmiş olur.

STANDARD DOOR INFORMATION

1. The door wing is made of 1,2 mm Thick A1 quality DKP iron sheet.
